

HEALTH & SECURITY POLICY

The Company's management has developed its policy for health and security, driven by the security of its staff and providing high level services.

«VETA sa» through the health and security policy is committed:

- To the full compliance to the Health and Safety laws and regulations for the staff.
- In placing all resources necessary for the prevention of occupational accidents and professional diseases
- To the full implementation, of the monitoring and reviewing of health and safety procedures in their entirety.
- The full implementation of the health and safety procedures by all of the company's staff members and for the total of its activities.
- To the adaption and continuous application of the Health and security procedures, in the case of any change in the internal structure, activity and installation of the equipment.
- The review and analysis of the Health and Safety plan in order to set targets for continuous improvement.
- To the continuous updating of the health and safety plan with the target of no occupational accidents.
- For the continuous communication of the staff in Health and Safety issues.
- For the providing of the necessary information resources and staff training for Health and Safety issues.
- For the notification of the corporate health and safety rules to all interested parties.

For the implementation of the Health and Security Policy, «VETA sa" considers the active participation of employees essential for the compliance, development and documentation of all health and safety procedures.

All employees in the company contribute to the effective implementation of the Health and Security system and its improvement.

The health and security policy is notified to all of the staff.
